Western Nebraska Community College provides tutoring at no charge to all students. In order to provide this valuable service to our online students or those who just cannot make it to the campus, WNCC provides this service via the Blackboard Online Tutoring Community site. You can access this service through the Blackboard link on your portal. Ask your instructor if there is a tutor for your class. Instructors will also provide you with the instructions needed for accessing this FREE service. All you need is a computer to access this benefit. Don't let lack of understanding content be your downfall. Work with the tutors to improve your understanding of course content and ultimately your grade.
